Community Notice

Gastroenteritis

Due to the presence of gastroenteritis in the community, the CISSS des Îles would like to remind you of some important instructions. If you have symptoms of gastroenteritis, stay home until 48 hours after the last symptoms have ended.

Throughout this period, it is important not to visit your loved ones and to avoid public places. We remind you that hand washing is an essential gesture to prevent infections. Information on when to consult is available on the website of the Ministère de la Santé et des Services sociaux or by calling Info-Santé, at 8-1-1.
